***Bitron Binary Compensation Plan – By Leon Froess – Dec. 15/2008***

***Bitron has a NEW compensation plan.*** So what does this mean to you? Well, for the vast majority of Alex's and my down line it means an increase in binary volume every month which means greater potential earnings for you. This is kind of cool because that means most of you now have the ability to make as much as 4 times the payout you did before from the main income producing bonus of the compensation plan! Call Alex (1-866-338-6334) or myself (Leon 1-866-238-1946) to find out more about this as everyone's circumstances are different.

Let's take a look at the new compensation plan. It is an "enhanced" a binary plan. By enhanced I mean that besides the many excellent features and bonuses, **it has one feature that is not available in any other compensation plan in any company anywhere in the network marketing industry.**

The ranks in the compensation plan are based on a "Star" which is when a person personally sponsors 2 people who activate at any level and maintain that activation with any auto ship. For example, when you personally sponsor a person on your left side and a person on your right side who activate at any level and maintain that with any auto ship, you become a Star. Every time you sponsor someone who becomes a Star, you gain a Star rank in the compensation plan. The ranks are Star, 1 Star, 2 Star, 3 Star, 4 Star, 5 Star, 6 Star, 7 Star, and 8 Star.

One of the biggest advantages of this new binary compensation plan to you is that all the monthly auto ship volume is now binary volume. How does that help you? Well the way it used to work in the old compensation plan is that if someone above you placed someone below you, you would accumulate only the activation volume but not the monthly auto ship volume. Now that auto ship volume also accumulates for you. Since you get paid on volume this will be a HUGE advantage because you can now earn more for the same effort. For some of you in my down line you will be getting up to an extra few thousand BV or so a month that you can get paid on.

The main bonuses in this plan are the Product Introduction Bonus, Binary Team Bonus, the Leadership Bonus, the Binary Matching Bonus, and the Upgrade Bonus. These are all described in the Binary Compensation Plan Summary. Here is the link. [https://uf1.com/bitron/b\\_products/binary\\_1.pdf](https://uf1.com/bitron/b_products/binary_1.pdf)

The actual document is also included in this newsletter for your reference.

**Product Introduction Bonus:**

This is similar to the old compensation plan. There is a Product Introduction Bonus paid when you sponsor someone who starts at any activation level in the compensation plan. Bonuses range from \$10 to \$250 and are paid in a combination gas cards and cash. There are 4 different activation levels which represent different packages of product and business building tools. The activation levels are Bronze for \$99, Silver for \$299, Gold for \$499 and Founder for \$1,668. There are advantages to the higher levels but you can always start out small and upgrade as you grow.

**Binary Team Bonus**

This is the same as the binary cycle bonus in the previous compensation plan. For every 100 BV on one side and 200 BV on the other side you get \$20. It doesn't matter who generated that volume (you, your up line, or your down line). In January 09 this will be changed to 300 BV on one side and 600 BV on the other side paying \$60 (exactly the same payout). The interesting thing about the new binary plan is that all those auto ships below you that have been put in place by your up line now count as binary volume and you can get paid on all that extra volume.

**Binary Matching Bonus**

The Matching Bonus has been significantly enhanced. Bitron used to pay you a bonus of 10% of whatever your personally sponsored people earn. Now it is 25%. This means that you really want to help your people earn money in this plan because it earns you more money as well. Personally, I really like the team work that this bonus encourages. Remember what I said about this compensation plan having one feature that is not available in any other compensation plan in any company in the network marketing industry? Well here it is - you can earn a Binary Matching Bonus 5 levels deep as you progress through the ranks in the compensation plan. That is HUGE and will translate into a **major portion** of your long term large residual income.

**Leadership Bonus**

This is a new bonus that is paid on Silver, Gold, and Founder activation levels in your down line. You can start earning these as soon as you are at the first rank in the compensation plan (STAR) and you earn a larger Leadership Bonus as you move up in rank.

To learn more about the New Binary Compensation Plan and how you can earn more money from it, call Alex or myself. You can also get on the compensation plan conference call which is on Tuesday evenings at 6:00 pm PST, 8:00 pm CST, 9:00 pm EST, phone number (605)475-6900, Pin 111123#

**People, here is the “long and short” of it.** There is tons of money to be made here, even if you don't know how or what to do. All you need is a desire, not a wish, but an actual desire for more than you have now, a Willingness to learn How and some time to work at your business. Just call Alex (1-866-338-6334) or I (1-866-238-1946) and we will help you get started.

-----  
**The following question came up on bitron.**

I have a question of my own that i was wondering. Does the Bitron products hold its molecular charge if stored outside in -35F weather? And is there a shelf life if stored outside as well as inside?

Ved's answer

Product efficacy is not affected by weather. It does work harder the hotter it gets however. Keeping it out of the elements is important (snow, rain etc.) but cold is not an issue. The product will thicken as with most things in the cold especially in temperatures reaching -40 degrees Celsius. When it thickens in the bottles it may be unable to pour at which point the temperature would have to be raised. It is not affected by repeated thickening and warming if stored for multiple seasons.

Take care

**Regards,**  
**Ved Nikolic Manager**

Leon's comment

***bitron as such has no charge like a battery --- Bitron is always positively charged, thus its charge is not affected by weather. Bitron positive charge is what makes it seek metal to stick to.***
