## Remove Your Attention from the City's Potholes

Here's some *Food for your Thoughts* for a Sunday.  
If you REALLY want to be successful, take this quote to heart:

*"If you want to be rich, look at what everyone else is doing...the MASSES are doing, and do the exact opposite."* from a Todd Falcone e mail

### The Seven Spiritual Laws of Success

**1-- THE LAW OF PURE POTENTIALITY**

2 -- THE LAW OF GIVING

**3 -- THE LAW OF "KARMA" OR CAUSE AND EFFECT.**

**4 -- THE LAW OF LEAST EFFORT**

5 -- THE LAW OF INTENTIONS AND DESIRE

6 -- THE LAW OF DETACHMENT

7 -- THE LAW OF "DHARMA" OR PURPOSE IN LIFE

**3 THE LAW OF "KARMA" OR CAUSE AND EFFECT.**

APPLYING THE LAW OF "KARMA" OR CAUSE AND EFFECT

I will put the Law of Karma into effect by making a commitment to take the following steps:

(1) Today I will witness the choices I make in each moment. And in the mere witnessing of these choices, I will bring them to my conscious awareness. I will know that the best way to prepare for any moment in the future is to be fully conscious in the present.

(2) Whenever I make a choice, I will ask myself two questions: "What are the consequences of this choice that I'm making?" and "Will this choice bring fulfillment and happiness to me and also to those who are affected by this choice?"

(3) I will then ask my heart for guidance and be guided by its message of comfort or discomfort. If the choice feels comfortable, I will plunge ahead with abandon. If the choice feels uncomfortable, I will pause and see the consequences of my actions with my inner vision. This guidance will enable me to make spontaneously correct choices for myself and for all those around me,

#### **4 THE LAW OF LEAST EFFORT**

##### **APPLYING THE LAW OF LEAST EFFORT**

I Will put the Law of Least Effort into effect by making a commitment to take the following steps:

(1) I will practice Acceptance. Today I will accept people, situations, circumstances, and events as they occur. I will know that this moment is as it should be, because the whole universe is as it should be. I will not struggle against the whole universe by struggling against this moment. My acceptance is total and complete. I accept things as they are this moment, not as I wish they were.

(2) Having accepted things as they are, I will take Responsibility for my situation and for all those events I see as problems. I know that taking responsibility means not blaming anyone or anything for my situation (and this includes myself). I also know that every problem is an opportunity in disguise, and this alertness to opportunity allows me to take this moment and transform it into a greater benefit.

(3) Today my awareness will remain established in DEFENSELESSNESS. I will relinquish the need to defend my point of view. I will feel no need to convince or persuade others to accept my point of view. I will remain open to all points of view and not be rigidly attached to any one of them.

#### **From the Book Think & Grow Rich**

##### **Chapter 3 Faith --DOMINATING THOUGHTS**

###### **Part#2**

The proof is simple and easily demonstrated. It is wrapped up in the principle of auto-suggestion. Let us center our attention, therefore, upon the subject of self-suggestion, and find out what it is, and what it is capable of achieving.

It is a well known fact that one comes, finally, to **BELIEVE** whatever one repeats to one's self, whether the statement be true or false. If a man repeats a lie over and over, he will eventually accept the lie as truth. Moreover, he will BELIEVE it to be the truth. Every man is what he is, because of the **DOMINATING THOUGHTS** which he permits to occupy his mind. Thoughts which a man deliberately places in his own mind, and encourages with sympathy, and with which he mixes anyone or more of the emotions, constitute the motivating forces, which direct and control his every movement, act, and deed!

Comes, now, a very significant statement of truth:

THOUGHTS WHICH ARE MIXED WITH ANY OF THE FEELINGS OF EMOTIONS, CONSTITUTE A "MAGNETIC" FORCE WHICH ATTRACTS, FROM THE VIBRATIONS OF THE ETHER, OTHER SIMILAR, OR RELATED THOUGHTS. A thought thus "magnetized" with emotion may be compared to a seed which, when planted in fertile soil, germinates, grows, and multiplies itself over and over again, until that which was originally one small seed, be-comes countless millions of seeds of the SAME BRAND!

p.49

We are what we are, because of the vibrations of thought which we pick up and register, through the stimuli of our daily environment.

Resolve to throw off the influences of any unfortunate environment, and to build your own life to ORDER. Taking inventory of mental assets and liabilities, you will discover that your greatest weakness is lack of self-confidence. This handicap can be surmounted, and timidity translated into courage, through the aid of the principle of autosuggestion. The application of this principle may be made through a simple arrangement of positive thought impulses stated in writing, memorized, and repeated, until they become a part of the working equipment of the subconscious faculty of your mind.

### **SELF-CONFIDENCE FORMULA**

**First.** I know that I have the ability to achieve the object of my Definite Purpose in life, therefore, I DEMAND of myself persistent, continuous action toward its attainment, and I here and now promise to render such action.

**Second.** I realize the dominating thoughts of my mind will eventually reproduce themselves in outward, physical action, and gradually transform themselves into physical reality, therefore, I will concentrate my thoughts for thirty minutes daily, upon the task of thinking of the person I intend to become, thereby creating in my mind a clear mental picture of that person.

**Third.** I know through the principle of auto-suggestion, any desire that I persistently hold in my mind will eventually seek expression through some practical means of attaining the object back of it, therefore, I will devote ten minutes daily to demanding of myself the development of SELF-CONFIDENCE.

**Fourth.** I have clearly written down a description of my DEFINITE CHIEF AIM in life, and I will never stop trying, until I shall have developed sufficient self-confidence for its attainment.

**Fifth.** I fully realize that no wealth or position can long endure, unless built upon truth and justice, therefore, I will engage in no transaction which does not benefit all whom it affects. I will succeed by attracting to myself the forces I wish to use, and the cooperation of other people. I will induce others to serve me, because of my willingness to serve others. I will eliminate hatred, envy, jealousy, selfishness, and cynicism, by developing love for all humanity, because I know that a negative attitude toward others can never bring me success. I will cause others to believe in me, because I will believe in them, and in myself.

I will sign my name to this formula, commit it to memory, and repeat it aloud once a day, with full FAITH that it will gradually influence my THOUGHTS and ACTIONS so that I will become a self-reliant, and successful person.

Look What Imagination can Accomplish When you are committed.

In the coming weeks and months amazing changes and product line additions will take place that will continue to position the new Bi-Tron among the best in the industry.

## **Natureworks isn't only about cleaning up your home; it's about a better, smarter, way to clean.**

Cleaning can be a chore, but dangerous chemicals and toxins can make it dangerous and a long term health concern. Stinging eyes, burning lungs and headaches are warning signs, not the unfortunate side-effects of a clean home. That's your body telling you, "Stop using this. It is bad for you!"

What's even worse is that you are putting your family at risk as well. That's why Natureworks' entire product line is both people and pet friendly, specially formulated to quickly clean up messes without harming you or your loved ones.

You may not know it, but if you're using typical household cleaners or you are likely using dangerous chemicals. Chemicals that aren't just bad for your home and the environment, but incredibly bad for you and your family as well.

What can you do? You can change! Take a look at the way you're cleaning, and see that unforgiving chemicals and toxins have no place in your home, no place in your body and no place in your cleaning products. Natureworks is the simple, natural, answer! Our line of home care products are non-toxic, made with naturally derived, biodegradable ingredients that clean like commercial grade cleaners without the toxic downside.

The way we look at it, if your home is chemical free, we all benefit. There's no question as to the advantages of using all natural, environmentally friendly cleaning products and you have selected the best of the best, Natureworks.

Natureworks cleaning products are proudly made in Canada and are Environment Canada EcoLogo certified meeting stringent environmental regulations. When you see the word "natural" on a Natureworks label, it means that 100% of its functional cleaning ingredients – things like soaps, detergents, solvents

and enzymes – are either found in nature or derived from natural sources. We use natural and naturally derived materials from renewable or abundant sources wherever we can. If we can't find a natural ingredient to get the job done, we'll use a safe, green, man-made version instead. In all cases, we only use ingredients that have passed through a comprehensive green and health screen: ingredients we have confirmed to be totally safe for people and safe for the environment. This is why we are certified by one of the most recognizable "green" certifications in the world, EcoLogo.

When it comes to labelling our products, we hold ourselves to a high standard because we believe that a natural cleaner should actually come from nature.

## **PURE CLEANING SOLUTION**

Natureworks Pure Cleaning Solution (PCS) is a safe to use, multi-purpose ultra concentrated natural cleaner. Unlike most traditional

cleaners on the market, Natureworks PCS does not contain any solvents, butyl cellosolve, alkyl phenol ethoxylates (APEs), carcinogens or VOCs (volatile organic compounds). Natureworks PCS's no rinse formulation is safe for use on a variety of surfaces such as walls, floors, countertops, machinery, stainless steel and other surfaces. In fact, with its non-corrosive pH and hard water tolerance, Natureworks PCS has outstanding cleaning characteristics that will remove dirt, greasy smudges as well as animal, vegetable and petroleum residues, but will not damage metal or painted surfaces.

## **For use on ANY surface that would not be damaged by water.**

Natureworks PCS is the proof that you can effectively clean your home while preserving your health, your family's health, and the environment. Swift and powerful, it is especially designed for those who have an environmental conscience yet expect the same results as tough commercial cleaners. Natureworks PCS breaks down tough stains and easily cleans up messes without harsh chemical. The naturally derived formula is safe on most surfaces in your home – tile, marble, sealed wood, metal, and most importantly, you. It's biodegradable so you can clean your home without flushing super toxic chemicals down the drain into our rivers, lakes and oceans.

**Environmentally-friendly, biodegradable and non toxic!**

Natureworks PCS has EcoLogo certification which guarantees you are using one of the most environmentally responsible multipurpose cleaners that is available. Naturally, Natureworks PCS is a biodegradable formulation.

Natureworks PCS was created by our chemists by combining naturally derived surfactants and detergents with water softening agents to provide maximum cleaning efficiency at cost controlled dilution rates. This advantage assures you of a quick and easy cleaning in the shortest amount of time.

Natureworks PCS is also extremely economical. One bottle contains enough top tier certified environmentally friendly cleaning concentrate to create more than 30 bottles of Heavy Duty Cleaner or 75 bottles of All Purpose Cleaner or more than 300 bottles of Light Surface Cleaner [740mL/25oz bottles]!

**Heavy Duty Cleaner:**

For a commercial strength Heavy Duty Cleaner perfect for degreasing and machine and equipment cleaning dilute Natureworks PCS with clean water at a ratio of 1:24.

For example, add 10z of Natureworks PCS to the provided Heavy Duty Cleaner spray bottle and fill remainder with clean water.

**All Purpose Cleaner:**

For a commercial strength All Purpose Cleaner and quick cleaning of stainless steel, walls, countertops and ceramic tile floors dilute Natureworks PCS with clean water at a ratio of 1:64. To make it easier you can simply further dilute the Heavy Duty Cleaner above at a ratio of 1:2.

For example, add 100z of the Heavy Duty Cleaner to the provided All Purpose Cleaner spray bottle and fill remainder with clean water.

**Light Surface Cleaner:**

For a commercial strength Light Surface Cleaner and spotless cleaning of glossy and smooth surfaces dilute Natureworks PCS with clean water at a ratio of 1:256. To make it easier you can simply further dilute the All Purpose Cleaner above at a ratio of 1:4.

For example, add 60z of the All Purpose Cleaner to the provided Light Surface Cleaner spray bottle and fill remainder with clean water.

**TESTIMONIALS**

**Bi-Tron's Pen Lube just saved us an \$1100 repair. My husband Tim was blowing fuses in the truck constantly. He used the Pen Lube once on all the connections and has not had a single problem since. When quoting the problem prior to using Bi-Tron we were told that it would cost \$1100. Jo-Anne Meissner Armstrong, BC**

**Prior to using Bi-Trons products I got 500 km per tank of gas. After using the products I was reaching 600 km per tank. Now I don't have to visit the gas station as much!**

**Patrick Von Pander  
Vancouver, BC**

On a recent trip July 9-12/10 to Richmond BC 232.87 kms or 144.38 miles, the gas indicator was a good needle width below 1/2 full. back home in Courtenay it was a good needles width above the red empty mark. At filled up we had 41 litres of fuel left in the tank. The tank holds 128 litres, it took only 87.350Litres. This trip took less than 3/8 of a tank of fuel. Fuel wise, cost was less than or about \$35.00. On this tank of fuel, other than the trip to Richmond, BC of 232.87 kms driving was in town of 456.13Kms. The refill up was 87.350 litres, distance travelled was 689.0 Kms, this equates to about 7.89kms/litre or 22.2515 mpg. A W Fraser, Courtenay,BC see photo above of my red 1997GMC

**Some Thoughts for your consideration?**

## **What is My Purpose?**

**What is the Purpose of my Work, My Home, My relationships?**

## **Do you have a personal or Family Mission Statement!**

If your conceived purpose is to make **Money**, then what is the core Purpose behind that conceived purpose to to make **Money? What is the Money For!**

If you have your nose out of joint about something you are presently doing, Why do you believe that shifting to something new will solve your problem!

Do you accept, believe in the power of Appreciation and do you practice it!

Do you believe or accept that there is a particular reason why someone turns up in your life no matter what the circumstances or situation is.

How many Books have you read or CD's listened to in the last 90 Days? How has their contents enhanced you?

Where are you, and Where Do You Desire to Be?

Who is your Coach guiding your from A to B?

Do you believe the statement "**Nothing is More Important Than Feeling Good**"!

## **Figure out your own "WHY".**

**Write it down. Test it mentally. (Will it keep you going in VERY tough times?)**

More tips to help you pinpoint your WHY:

What does your family mean to you?

What do you want for your own personal growth?

What you want to accomplish in your lifetime?

What scares you to death?

What would it mean to you to help others change their lives?  
What really excites you in life?  
What REALLY makes you angry about your life?  
What would you like to give the people you love most?  
What really, gets you emotional?

It's Critical. You Need a Strong, written "WHY" to stick around long enough to be successful in this business.  
Listen! To This internally

If I can help you be successful... help you harness your demons and decide to pay the price.. then I'll feel pretty good about myself.

I hate to see someone who quits.

**Make sure your WHY is a 99.9 percenter.**

What motivates you to get up off the couch? What gets you to turn the TV off? What would motivate you to call someone who has asked for information on your business?

**How Motivated are YOU?**

**Write Down Your WHY!** If you won't pay that small price, then we can not help you.

Write the 3 biggest reasons you **MUST** be successful. This is real life. If you can't do it immediately, then sit there with that blank paper in front of you until you can.

If you don't do this you'll quit so fast, it'll make your head spin.

**NO Why? NO HOPE!**

90% of the people who start a business will never write down their reasons. So if you do, it's a very good indicator.

**So Write Your Reasons. And Make Them GOOD!**

Only you know if they're good enough for. So write three, then think some more. Flush them out. Make them bigger.

Work on them until you say, "Holy Mackerel!!! This is it!"  
Then you're really in business!

By James & Beverly Bucker

**So what Do You Desire!**
